GE 251 PP

Immersion assembly for installation of one pH or ORP sensor

Advantages

- With protective cage to protect the sensor
- Fitting head with M16 cable gland
- Easy access to sensor
- Fastening with pipe clamps

Technical data

Ambient conditions

- Temperature: Max. 90 °C

Mechanical construction

- Material: PP
- Dimensions: See dimensional drawing

Artikelnummer:

36511020K, Type: GE 251 PP,
Description: immersion assembly for one pH or ORP sensor
