

NEON[®] ONE | I/O Board

General description

The NEON[®] ONE | I/O Board is a modular expansion board for the NEON[®] ONE platform, designed for flexible input and output signal processing. It features three slots for digital inputs, digital outputs, analog inputs, or analog outputs and includes an alarm relay. The board connects via CAN with the other NEON[®] ONE platform like the NEON[®] ONE | COMPACT or to NEON[®] ONE | CORE. Sensor integration is managed via NEON[®] ONE | NODE Input Modules, allowing up to 6 sensors.
